

WORKSHOP

CREATING A CUSTOMER CARE ENVIRONMENT

CREATING A CUSTOMER CARE ENVIRONMENT

COURSE INTRODUCTION

DRA Consulting is a Management Consulting and Training Organization that has been providing exceptional Soft Skills Training and Customer Care Solutions to its Caribbean clients since 1996. The organization is committed to transforming individuals into high performing business professionals and organizations into world class, cultures of service.

As Management and Customer Care Consultants we have interacted with Line Managers and Supervisors often and have discovered a lack of modern, up to date skills at this level. As a result, Managers and Supervisors have been unable to respond effectively to the demands of an evolving workforce.

One of the requirements of the Modern Day Manager, is the ability to not only oversee the everyday operations of their department, but to ensure that they create an environment that enables and supports the delivery of Quality Customer Care to Customers.

This 1 Day Workshop will introduce Managers to some of the necessary actions and practices for creating a service oriented team.
